Passionate Front-end Developer with 2+ years of industry experience building highly interactive and user-friendly web applications using React, HTML, CSS, Typescript, and Javascript. Proficient in developing and deploying highly interactive web applications that drive user engagement and satisfaction. Transforms UI/UX designs into responsive and intuitive interfaces, resulting in improved conversion rates. Collaborative team player skilled at delivering scalable solutions within challenging deadlines. Committed to continuous learning and staying up-to-date on the latest frontend development trends. I am excited to leverage my skills and expertise to create visually stunning web experiences and drive business success.

PROFESSIONAL EXPERIENCE

March 2023 – August 2023
WeDance, Germany
Frontend Developer

- Orchestrated the end-to-end procurement process of NFC cards from the vendor, streamlining operations and ensuring timely delivery of 500+ units, resulting in a seamless customer experience.
- In an agile development environment, I actively contributed to sprint planning and worked collaboratively with cross-functional teams. This required efficient time management and adaptability to ensure the timely delivery of high-impact features.
- Collaborated closely with cross-functional teams to refine and prioritize user stories and tickets, ensuring alignment with project goals.
- Boosted website performance by 40%, reducing page load time and increasing user engagement by 25%. Achieved this by strategically refactoring code and optimizing resource loading techniques.
- Encountered a critical bug that had stumped the team for weeks. I took a systematic approach, analyzed the problem from various angles, and identified a previously overlooked issue, ultimately resolving it and reducing system bugs by 20%.
- Achieved a substantial 40% increase in seller-to-buyer connections for NFC card transactions by implementing a feature that facilitates rapid connections between them.
- Quickly learned and adapted to new tools and languages, such as TailwindCSS and Firebase, to meet project requirements. This ability to learn on the fly contributed to the team's efficiency and project success.

August 2022 – June 2023
ALx Africa, Lagos
Software Engineer

- Collaborated with a team of engineers to diagnose and optimize complex front-end codebase, resulting in a 40% reduction in application load time and improving overall user experience.
- Conducted in-depth code reviews for cross-functional development teams, providing comprehensive feedback on optimization opportunities and ensuring strict adherence to frontend coding best practices. This effort resulted in a 20% reduction in system bugs and a notable improvement in code quality.
- Spearheaded hands-on front-end software development initiatives, leveraging agile methodologies and collaborating with cross-functional teams. Reduced development time by 40% and successfully launched three high-impact applications.
- Worked with a cross-functional team of skilled engineers to design, develop, and maintain front-end software applications. Increased productivity by 25% and reduced bug resolution time by 40% through agile methodologies and code review processes.

- Consistently ranked within the top 5% of participants in coding challenges, showcasing proficiency in problem-solving and algorithmic thinking, which are valuable skills for frontend development.

EDUCATION

Bells University of Technology, Ota, Ogun State
Bachelor of Technology, Computer Science
- Awards: Dean's List 2022 (Top 5%)

SKILLS & OTHER

- Skills: HTML, CSS, JavaScript, TypeScript, React, Git, GitHub, Redux, Typescript, Tailwind CSS, BootStrap, Python, Django.
- Personal project: Portfolio, Car Washing Scheduler, Algorithm Visualizer, GPT-3, MovieBox.
- Communication: Effective at conveying technical concepts to non-technical stakeholders and collaborating across teams.
- Problem-Solving: Skilled in resolving complex issues and finding creative solutions in software development.
- Teamwork: Proficient at working collaboratively within cross-functional teams and in agile environments.
- Adaptability: Quick to learn and adapt to new tools, languages, and methodologies.
- Time Management: Excellent at meeting deadlines and efficiently managing project tasks.
- Attention to Detail: Ensures precision in coding, testing, and maintaining high-quality work.
- Critical Thinking: Analyzes problems from various angles to make informed decisions.
- Empathy: Understands user needs and incorporates user perspectives into software design.
- Conflict Resolution: Effective at resolving team conflicts and addressing project issues.
- Leadership: Demonstrated leadership and mentoring skills in previous roles.
- Interests:
-
- Open-Source Contribution: Passionate about contributing to open-source projects and fostering collaborative development.
- Continuous Learning: Enthusiastic about staying updated with the latest industry trends and technologies.
- Tech Community Involvement: Actively participates in tech meetups, conferences, and knowledge-sharing forums.
